Product features:

- 1) 4.0 inches full view screen provides a more vivid and colourful image display and the touch panel
makes it more convenient and brisk to operate the car DVR;
- 2) Full HD 1080P resolution with enhanced night vision allows you to achieve the highest quality image
both in the daytime and at night;
- 3) 2Channels, both the front and rear cam can record simultaneously;
- 4) Front 170° + rear 120° super wide view angle;
- 5) Seamless loop recording, not any second video will be missed, no worry about full card;
- 6) 3 axials G-sensor automatically lock videos of unexpected incidents for later playback;
- 7) 24 hours parking monitor (**direct charger is required to ensure power supply after engine shutdown**);
- 8) Motion detection detects any movement of the object and starts recording automatically;
- 9) Automatic rearview parking grid makes it much easier to park the car.

Model no.	DCZ16D-2
LCD display	4.0" Full view angle high definition screen
Lens	12 Megapixels CMOS sensor, 6 layers full glass lens, 170 degrees ultra wide view angle.
Video format	AVI
Video resolution	1080FHD 1920x1080, 720P 1280x720, VGA 640x480.
Photo format	JPEG
Photo resolution	12M, 10M, 8M, 5M, 3M, 2M, 1.3M, VGA.
Cycle recording	Support; 1min, 3min, 5min, off.
Motion detection	Support
G-sensor	Support; high, medium, low, off.
Auto power on/off	Support; 3min, 5min, 10min, off.
Interval recording	Support; 100ms, 200ms, 500ms, off.
HDR	Support
Headlight warning	Support(when the image sensor detects the illumination is too dark, the DVR would remind to take on the car headlight to make up enough light)
Parking monitor	Support
Starlight night vision	Support
Real time stamp	Support
Microphone	Built-in
Speaker	Built-in
Interface	USB 2.0, AV-OUT
Charger	DC5V 1A
Battery	Li-polymer battery 350mAh/3.7V
External memory	Max 64GB(It's better to have C10 high rate TF card).
Temperature	Operation temp: -10° C-65° C, storage temp: -20° C-70° C.

4 modes

Front And Rear View

Rear And Front View

7-STAR[★]

Dual Lens

Configure the rear camera to watch the front and back at the same time and respond in time.

7-STAR[★]

4-inch touch screen, 1080P HD quality, give you a different experience.

7-STAR^{*}

Loop recording

When the capacity of the micro SD card becomes full during recording, new data is overwritten in order from the oldest file first. It eliminates the work of deleting unnecessary data and there is no worry about omission of shooting due to insufficient card capacity at the time of emergency. (SD card not included)

7-STAR^{*}

Emergency video function

When a major accident occurs, the screen is automatically stored to prevent the image from being lost and covered

7-STAR[★]
